Is the income threshold for eligibility set by Family Promise? Or is that determined by someone else (noticing a hardcoded threshold of 61680 and I don't know whether that should be set in stone) poverty line? (I think it was based on [this](#) or [this](#) - both are in the Spokane Resources Trello card. Also, maybe [here](#)?)

(yes, all those links above are good resources. Just make sure they are current 2021 figures)
Determined Federally, HUD (Housing and Urban Development) sets it, then that goes to State, then to County, then to us.
